

RISK ASSESSMENT

Information of Activity

Site: Rainforestation Nature Park Location: Wildlife Park
 Identified by: Chris Grantham, General Manager Date: 15th March 2022
 Identified Hazard / Task: **Wildlife Experience**

Risk Analysis – level of risk

Identified Hazards	Risk Assessment			Risk Score E x L x C	Risk Level
	Exposure (E)	Likelihood (L)	Consequence (C)		
Physical Strains & Sprains	1	0.3	2	.6	L
Tip/Fall Hazard – koala enclosure	1	0.1	2	.2	L
Animal Handling – bites and scratches	3	0.3	5	4.5	M
Food Handling Risk	1	0.3	2	.6	L

Definitions

Exposure	E	Likelihood	L	Consequence	C	Risk Score	Hierarchy of Risk Controls
Continuously	10	Almost Certain	1.0	Catastrophic	20	E >20 H >10 M 3 – 10	Elimination is a permanent solution and should be attempted in the first instance. Substitution involves replacing the hazard or environmental aspect by one of the lower risk. Engineering controls involve physical barriers or structural changes to the environment or process. Administration controls reduce hazard by altering procedures and providing instructions Personal protective equipment last resort or temporary control.
Frequently	6	Likely	0.6	Major	10		
Occasionally	3	Possible	0.3	Moderate	5		
Infrequently	2	Unlikely	0.1	Minor	2	L <3	
Rarely	1	Rare	0.05	Insignificant	1		

LEGEND

E: extreme/significant risk; immediate action required; must be managed by senior management with a detailed plan, notify RMO immediately.
H: high risk; senior management attention needed; detailed research and management planning at senior levels.
M: moderate risk; management responsibility must be specified; manage by specific monitoring or response procedures.
L: low risk; manage by routine procedures; unlikely to need specific allocation of resources

Details of Action to be Taken

Actions: (When determining action, refer to Hierarchy of Risk Control.)

Physical Strains & Sprains – Perceived risks minimised by participants given clear instruction and direction prior to entering the enclosure and participants to be under constant supervision.

Trip/Fall Hazard – Koala Enclosure – Perceived risks minimised by induction into enclosure, clear instructions and constant supervision.

Animal Handling – To be done under constant supervision of qualified animal handler. Perceived risk minimised by participants being given clear directions on the correct way to handle animals and given demonstrations by qualified handler prior to handling any animals.

Food Handling Risks – Perceived risks minimised by inclusion of food safety instructions required for use of knives during food preparation.

Person assessing the risk: Chris Grantham, General Manager Date: 15th March 2022
 Authorised by: Michael Woodward, Director and Systems and Projects Manager Planned Completion Date: N/A – On-Going
